One of the **Largest** orthopedic and sports medicine practices in the Southeast

Performed **920** Spinal fusions in 2019 & 2020, more than any other children's hospital in the country

Raising Resilience Messaging

FAILURE IS ACTUALLY AN OPTION.

SOMETIMES THE BEST ADVICE YOU CAN GIVE IS JUST LISTENING.

CLOSING YOUR EYES & COUNTING TO 10 ISN'T JUST FOR HIDE AND SEEK.

UPS, DOWNS AND EVERYTHING IN BETWEEN

RAISING RESILIENCE
STRONG4LIFE / Children's Healthcare of Atlanta

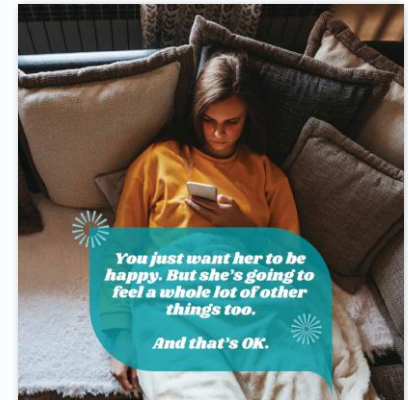

Resilience Myth no. 1
Resilience is pushing through and not letting anything bother you.

RAISING RESILIENCE

National Institutes of Health Rapid Acceleration of Diagnostics (RADx)

Children'sSM
Healthcare of Atlanta

EMORY
UNIVERSITY

**Georgia
Tech**

“I was really excited and a little bit terrified—promising we could do things that I wasn’t sure were even possible. But I need not have worried, because the RADx team we celebrate today had all the moxie necessary to deliver the results we needed.”

- Dr. Francis Collins
Former NIH Director

The next great transformation in pediatric healthcare is
in Atlanta

Children's is dreaming bigger for kids

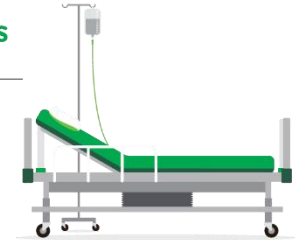

Arthur M. Blank Hospital:

19 stories, more than **1.5 million square feet** of hospital space

A campus of more than **70 acres**

35% more beds overall,
with room to grow

72% more pediatric cancer patient
beds in the **Aflac Cancer and
Blood Disorders Center**

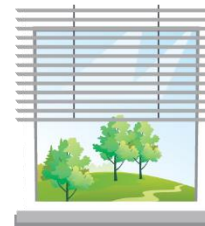

25%
more **pediatric
cardiac beds**

4 specially
designed
**cardiovascular
operating rooms**

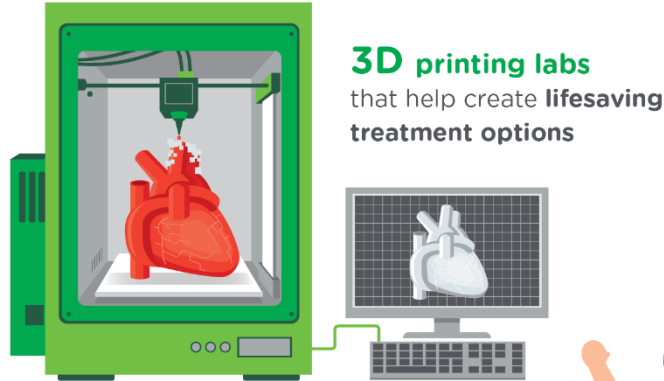

A **Special Care Unit (SCU)** for treating
patients with highly infectious diseases
like Ebola and COVID-19

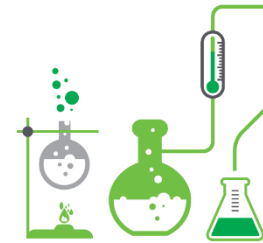

75% of **patient rooms**
have garden views, which may
decrease pain, reduce stress and
lower blood pressure

We're building capacity to deliver specialized care

Developing the **next generation of pediatric caregivers**: teaching and training more than **200 fellows and residents each year**

3D printing labs that help create **lifesaving treatment options**

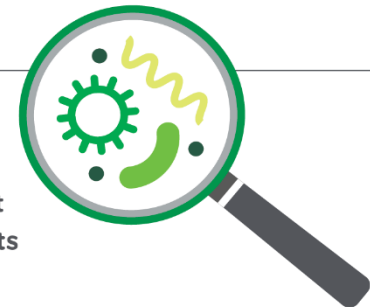

Increasing accessibility to clinical research studies and trials

Using **innovative technology in treatments** to help develop **better prosthetics**

Cell therapy labs dedicated to providing some of the **most advanced care and treatments**

Thank you!
